

Why EE?

Why EE?

Connectivity on the go has never been more important to businesses. In a recent BT survey, it was revealed that 59% of entrepreneurs now rate their mobile phone as the top tech to run their operations, which is why EE is as focused as ever on providing a service that's reliable, responsible, and lightning fast in every corner of the UK.

It's also the reason they've been crowned the UK's best network for 10 years running* by RootMetrics.

When it counts, you can count on EE

Unbeatable 5G, superfast speeds, unrivalled reliability. There are many reasons why businesses around the UK trust EE year in, year out:

The UK's most reliable network

So, you can work with confidence, wherever your job takes you.

The fastest

With average download speeds of 58Mbps, EE is twice as fast as any other network. So, you can download huge files in seconds.

Ahead of the curve

Improving their network's speed, reliability, and call quality, so they can continue to offer their customers the best.

Stay connected

EE is the network your business can rely on. Their Stay Connected Data promise ensures you'll never be out of reach, even when you exceed your data usage.

5G in more places than anyone else

Whether you work in a busy city, or rural area, you won't be out of touch.

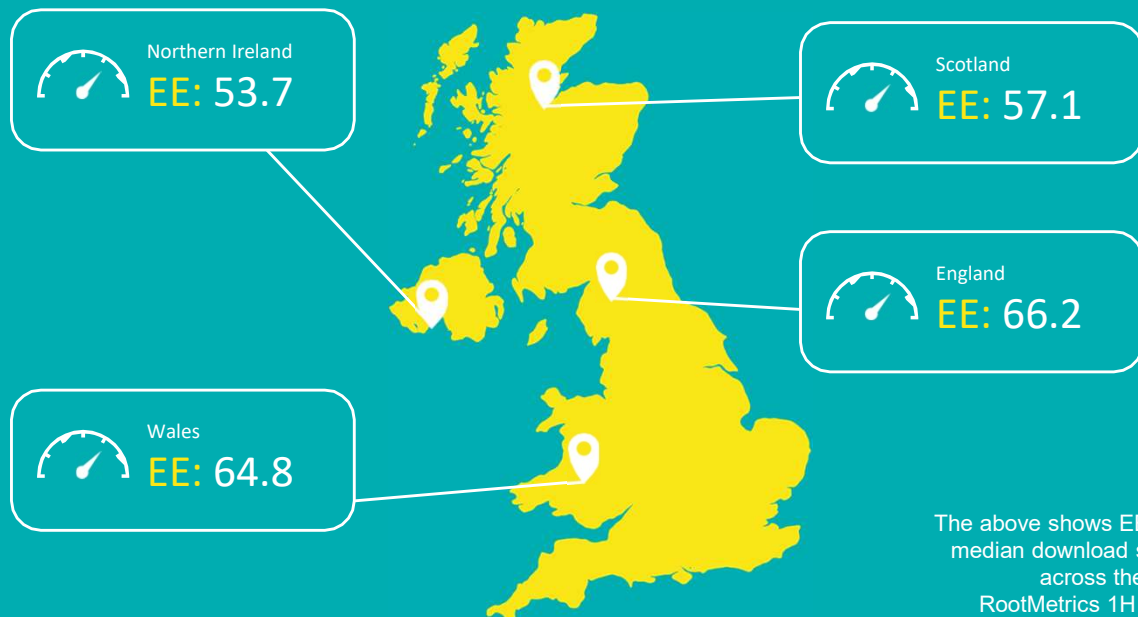

A PERFECT TEN

With unrivalled reliability, it's no surprise that we're the UK's best network for ten years in a row.

Full speeds ahead

EE's latest average download speeds continue to put their rivals to shame as they remain the fastest operator in England, Scotland, Wales and Northern Ireland.

Great in an emergency

Are you looking for more proof that EE will take great care of your business? How about the fact the Home Office trusts them to provide Great Britain's emergency services voice and data network? That means it's their job to give over 300,000 frontline workers cutting-edge communication technology they can rely on, even in rural and remote areas.

UK'S BEST NETWORK 10 YEARS IN A ROW: Rankings based on the RootMetrics® UK RootScore® Report: From H2 2013 to H2 2022. Tested with best commercially available smartphones on 4 national mobile networks across all available network types. Your experiences may vary. The RootMetrics award is not an endorsement of EE. Visit ee.co.uk/claims for more details.
